MAYOR'S OFFICE  
 CITY OF NORTH ROYALTON

Dear Mayor Stefanik:

Enclosed please find the 2011 contract for public health services provided by the Cuyahoga County Board of Health (CCBH).

Chapter 3709 of the Ohio Revised Code stipulates that each city in the State of Ohio "...must provide health services either through a city health district or by a valid contract or union with the county health district or an adjacent city health district." The Director of the Ohio Department of Health certifies this provision of health services annually. To remain certified, the contract needs to be approved by your council and returned to the Cuyahoga County Board of Health by December 31, 2010.

The Board of Health is maintaining its current uniform rate of \$3.70 per capita throughout the health district for 2011 services. This is the same rate that we charged in 2009 and 2010. This represents the total cost for all contract public health services and remains among the lowest rates in the State of Ohio. The rates in other large metropolitan areas are double and even triple this rate. Here are two of the most recent comparison per capita rates:

Summit County	\$10.49
Dayton/Montgomery County	\$32.53

We are committed to a continued diversification of our funding streams to meet the public health needs of the community to control direct costs to the cities, villages and townships we serve. We realize that this approach has become even more important during these challenging economic times.

The Cuyahoga County Board of Health works with all of our contract communities on a wide range of public health issues that impact your citizens. Chief among these issues is the prevention and control of chronic diseases like asthma, diabetes, cancer and heart disease, which account for 75% of all healthcare costs. The CDC estimates that 80% of heart disease and stroke, 80% of Type 2 diabetes, and 40% of cancers could be prevented if we were to do three things: stop smoking, start eating healthy and getting in shape. CCBH has been working diligently to enforce Ohio's comprehensive Smoke-free Law, with over a 95% compliance rate in our jurisdiction, reducing emergency department usage and health care costs. We have also identified emerging opportunities to seek funding to promote health and wellness, in moving

"upstream" to prevent these chronic diseases that stress our economy and shorten our life expectancies. Major health policy changes, like the Smoke-free Law, are among the most challenging to execute, but deliver the most significant positive impacts on public health. We will continue working with our community partners, and to work with children, adolescents, adults, and seniors to create the conditions in which people can be healthy.

We remain focused on delivering high quality public health services to your community, just as we have since 1919. Please contact me if you have any questions concerning the 2011 contract, or if you would like us to come to your city and present our contract to your administration or council.

Sincerely,
