Improvement work to begin on Royalton Road/W. 130th Street intersection

Cleveland --- On Monday, October 5, 2009, the Office of Robert C. Klaiber, Jr., P.E., P.S., Cuyahoga County Engineer, will begin the Royalton Road/W. 130th Street intersection improvement project in the Cities of North Royalton & Strongsville. Work scheduled for this fall includes underground, water, sanitary and sewer work. The intersection will be widened, curbs will be placed and paving will begin in the spring of 2010. Please note that traffic will be maintained at all time throughout the course of construction, with one lane in each direction. Delays, however, are to be expected.

The improvement of this intersection, which will begin on Monday, is scheduled for completion in September 2010. Karvo Paving Company is the general contractor for this project, which is estimated to cost \$2,213,351.74. Funding is being provided through the Ohio Public Works Commission, Cuyahoga County and the Cities of North Royalton & Strongsville.

For more information, questions or concerns, please contact the Public Information Department, Monday through Friday, 8:30 a.m. to 4:30 p.m., at (216) 348-3824.
