With the technological advances that are the norm now when building the trucks, repairs are costly once the standard warranty is over.

We also offer a money back guarantee - if you don't use the warranty during the warranty period, we will give you a full refund of the warranty cost.

See attached for the warranty coverage.

If not bought off of state contract, the cost would be \$31,465.00.

Did you want the power group Scott? Just let me know!

I will call you to follow up or you can call me at any time!
