The City of North Royalton continues to be committed to providing our community with updates during the Coronavirus epidemic. We are working closely with our internal stakeholders to follow the most up-to-date guidance from local, state and federal agencies. We are continually working with the Cuyahoga County Office of Emergency Management and County Board of Health daily to ensure proper procedures and guidelines are followed. The simple reality is that we are all facing significant changes to the way government, businesses and our personal lives take place.

We encourage our residents to take action by continually updating their knowledge of the present Coronavirus situation by reviewing information on preventive measures from the CDC, as well as the Ohio Department of Health and the State of Ohio Governor’s orders. Prevention, good personal hygiene and social distancing must continue to be followed. Please review the following information on what you need to do to help prevent the spread.
